

# EIBA Anti-Doping Guidance Note

## EIBA Anti-Doping Rules

The Association's Anti-Doping Rules are:

*“The anti-doping rules of the English Indoor Bowling Association Limited are the UK Anti-Doping Rules published by UK Anti-Doping (or its successor), as amended from time to time. Such rules shall take effect and be construed as rules of the English Indoor Bowling Association Limited.”*

The **UK Anti-Doping (UKAD)** website is aimed at all UK athletes. We encourage all Bowlers and Support Personnel (Club/County Officials, Umpires and Coaches) to use this website as their primary source of information when researching anti-doping:

[www.ukad.org.uk/](http://www.ukad.org.uk/)

The screenshot shows the UKAD website homepage. At the top left is the UKAD logo with the tagline 'Protecting Sport'. To the right are buttons for 'Clean Sport Hub', 'Report Doping', and a search icon. Below this is a main navigation menu with links for 'About', 'Athletes & Support Personnel', 'Education', 'Violations', and 'News'. A 'Quick Links' section follows, featuring six tiles: 'Manage Supplements' (with an image of a hand holding a pill), 'Check Your Medication' (with a 'global DRO' logo), 'The Prohibited List' (with an image of a document), '100% me' (with a '100% me' logo), 'Anti-Doping Rules' (with an image of a red whistle), and 'Testing' (with an image of a vial).

The latest version of the **UKAD Anti-Doping Rules** can be found at: [www.ukad.org.uk/anti-doping-rules](http://www.ukad.org.uk/anti-doping-rules)

This screenshot shows the UKAD website page for 'The Anti-Doping Rules'. It features the same navigation menu as the homepage. Below the menu is a large banner image showing a petri dish with yellow liquid on a document. Underneath the image, the text 'UKAD - Anti-Doping Rules' is visible, followed by the main heading 'The Anti-Doping Rules' which is underlined.

See additional information below.

# EIBA Anti-Doping Guidance Note

The **World Anti-Doping Agency (WADA)** website provides general anti-doping information including the World Anti-Doping Code and the Prohibited List: [www.wada-ama.org/en](http://www.wada-ama.org/en)

<p>The Prohibited List</p>	<p><b>18 - 19 MAR 2025</b> WADA Annual Symposium</p> <p>EVENT</p>	<p><b>20 NOV 2024</b> WADA provides update on the work of its Taskforce on Un...</p> <p>RELEASES</p>	<p>Code Review</p> <p>WHAT WE DO</p>
----------------------------	---	--	--------------------------------------

The **Global Drug Reference Online (Global DRO)** website provides Bowlers and Support Personnel with information about the prohibited status of specific substances based on the current WADA Prohibited List:

[www.globaldro.com/Home](http://www.globaldro.com/Home)

The screenshot shows the Global DRO website interface. At the top, there is a logo for 'global DRO' and the text 'The WADA Prohibited List in Action!'. Below this is a section titled 'CHOOSE YOUR SPORT NATIONALITY' with several flags representing different countries: Canada, United Kingdom, United States, Switzerland, Japan, Australia, New Zealand, and Other. To the right of the flags is a photograph of a person in a red jacket performing a snowboard trick. Below the flags, there is a paragraph of text explaining the purpose of the Global DRO website and its partners.

The Global Drug Reference Online (Global DRO) provides athletes and support personnel with information about the prohibited status of specific medications based on the current World Anti-Doping Agency (WADA) Prohibited List.

Global DRO does not contain information on, or that applies to, any dietary supplements.

Visitors can search the Global DRO for specific information on products sold in Australia, Canada, Japan, New Zealand, Switzerland, the United Kingdom, and the United States.

Global DRO is brought to you through a partnership between the Canadian Centre for Ethics in Sport (CCES), Swiss Sport Integrity (SSI), UK Anti-Doping (UKAD), and the United States Anti-Doping Agency (USADA). Drug-Free Sport New Zealand (DFSNZ), the Japan Anti-Doping Agency (JADA) and Sport Integrity Australia are official Global DRO licensees.

# EIBA Anti-Doping Guidance Note

## Guidance for all Playing Members of Affiliated Clubs and County Associations and their Support Personnel

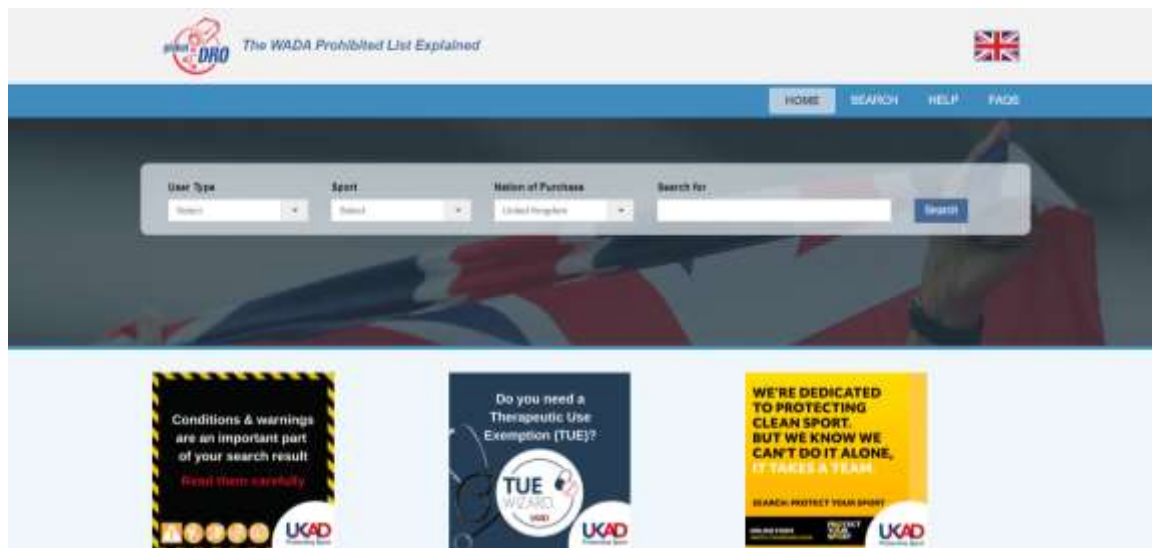

If a Bowler is taking medication, they are encouraged to follow the simple procedures outlined below:

Check on the Global DRO website to see whether medication is prohibited - [www.globaldro.com/UK/search](http://www.globaldro.com/UK/search)

### ONLINE HELP

Follow these simple steps to find the status of a brand or ingredient:

Click onto [www.globaldro.com/UK/search](http://www.globaldro.com/UK/search)

Select your "User Type" (e.g., Athlete, Coach, Pharmacist, Medical Professional, Parent, Sports Administrator, Other).

Select our "Sport" – Bowls

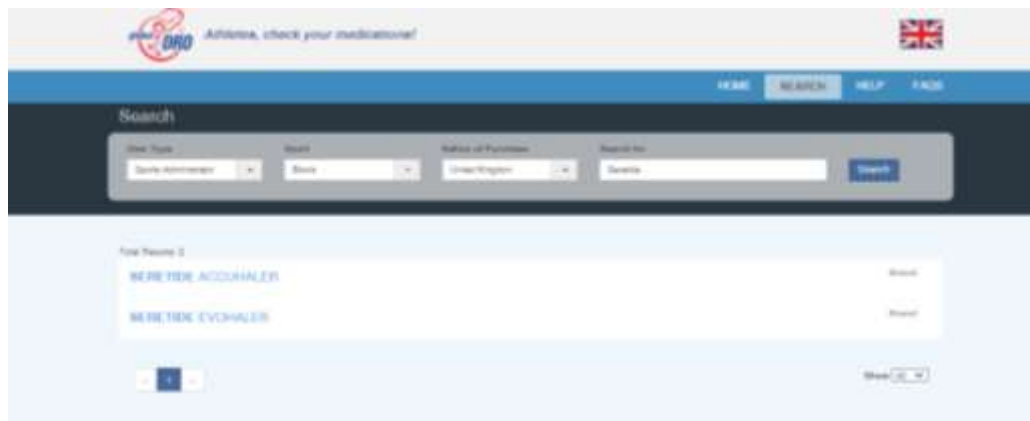

Select appropriate "Nation of Purchase"

Enter a minimum of four characters of the brand name, or the active ingredient into the "Search for" box.

Click [Search].

Read the "Terms and Conditions" carefully. Click "I accept these terms" to continue. If you choose to not accept the conditions, you will not be allowed to proceed to the search page.

**Sample Search:** - Seretide

Click on the correct brand or ingredient from the list, checking that the name on the Global DRO matches that on the label. This must be an exact match.

# EIBA Anti-Doping Guidance Note

# EIBA Anti-Doping Guidance Note

## Important information about search results:

- Always record your reference number!
- The “in-competition” and “out-of-competition” status will be shown for each ingredient contained in the brand.
- For brands containing multiple ingredients, always refer to the overall status listed at the top of the results page.
- Caution: Do not use the Global DRO to check supplement ingredients. See the FAQ for more information about the results of the Search - [www.globaldro.com/UK/search/FAQ](http://www.globaldro.com/UK/search/FAQ)
- Ingredients and brands will be displayed as shown in example below :

### In Competition

The period commencing at 11:59 p.m. on the day before a competition in which the athlete is scheduled to participate through the end of such competition and the sample collection process related to such competition.

### Not Prohibited

Subject to the conditions / warnings shown in the search result, there are no restrictions on the use of this ingredient or brand according to the current WADA Prohibited List.

Take note of the substance’s status both in-competition and out-of-competition, as they may differ depending on how the substance is classified on the Prohibited List. See the FAQ for more information.

### Out of Competition

Any period which is not in-competition.

### Not Prohibited

Subject to the conditions / warnings shown in the search result, there are no restrictions on the use of this ingredient or brand according to the current WADA Prohibited List.

Take note of the substance’s status both in-competition and out-of-competition, as they may differ depending on how the substance is classified on the Prohibited List. See the FAQ for more information.

### In Competition

*The period commencing at 11:59 p.m. on the day before a competition in which the athlete is scheduled to participate through the end of such competition and the sample collection process related to such competition.*

### Conditional

*This ingredient or brand is prohibited in certain circumstances.*

*Please read the “Conditions / Warnings” carefully to understand the conditions under which this ingredient is prohibited and not prohibited.*

### Out of Competition

*Any period which is not in-competition.*

### Conditional

*This ingredient or brand is prohibited in certain circumstances.*

*Please read the “Conditions / Warnings” carefully to understand the conditions under which this ingredient is prohibited and not prohibited.*

# EIBA Anti-Doping Guidance Note

## In Competition

The period commencing at 11:59 p.m. on the day before a competition in which the athlete is scheduled to participate through the end of such competition and the sample collection process related to such competition.

## Prohibited

This ingredient or brand is included on the WADA Prohibited List.

Athletes who have been diagnosed with a medical condition that requires the use of a prohibited substance may apply for a [Therapeutic Use Exemption \(TUE\)](#) to request permission for the use of the prohibited substance.

Take note of the substance's status both in-competition and out-of-competition, as they may differ depending on how the substance is classified on the Prohibited List. See the FAQ for more information.

## Out of Competition

Any period which is not in-competition.

## Prohibited

This ingredient or brand is included on the WADA Prohibited List.

Athletes who have been diagnosed with a medical condition that requires the use of a prohibited substance may apply for a [Therapeutic Use Exemption \(TUE\)](#) to request permission for the use of the prohibited substance.

Take note of the substance's status both in-competition and out-of-competition, as they may differ depending on how the substance is classified on the Prohibited List. See the FAQ for more information.

## TUE PROCEDURE

See FAQ's – [www.globaldro.com/UK/search/FAQ](http://www.globaldro.com/UK/search/FAQ)

**I have checked my medication and it is prohibited. What do I need to do now?**

**If the medication you are looking to take is prohibited, you may need to apply for a Therapeutic Use Exemption (TUE).** Consult the TUE Wizard on the UK Anti-Doping website (<https://www.ukad.org.uk/tue-wizard>) for more information about the TUE process.

### Do you need a Therapeutic Use Exemption (TUE)?

It is an athlete's responsibility to be aware of, and understand, the TUE process and requirements that apply to them.

These requirements will vary depending on the athlete's medication, their sport, and their competition level.

Use our TUE Wizard to determine whether, when and how to apply for a TUE.

Make sure to press submit once you have finished using the Wizard to generate a report of your search. We recommend you keep a copy of your Wizard search results should they be needed to demonstrate the checks you have made and when you last made them.

### TUE Wizard

#### Disclaimer

The Therapeutic Use Exemption Wizard (the Wizard) is a tool designed to guide individuals through the requirements for Therapeutic Use Exemptions (TUE) and is subject to the UKAD General Privacy Notice and the UKAD Cookie Policy. However, please note the Wizard is merely a guide to assist athletes and it remains each athlete's individual responsibility to actively check and verify their TUE requirements regularly. UKAD cannot be held liable for errors in results including, but not limited to, those occurring due to the input of incorrect information into the Wizard or for the misinterpretation of the results provided by the Wizard.

The results provided by the Wizard will reflect changes to the relevant rules and substance, including the World Anti-Doping

# EIBA Anti-Doping Guidance Note

Answer the following questions:

1. Have you checked the status of your medication on Global DRO?

*Please note, as the Prohibited List is updated annually, you should recheck the status of any medication you continue to use on Global DRO at the start of each calendar year.*

2. Does your medication contain a prohibited substance or is your treatment considered to be a prohibited method?
3. Do alternative permitted medications exist that are suitable to treat your medical condition?

*It is an athlete's responsibility to check with their doctor if they could use an alternative medication or treatment that is permitted within sport.*

*If you have already started the treatment in a medical emergency, then please click 'No' to proceed with the Wizard and find out if you need to apply for a TUE.*

### **Answer of "YES"**

*If in consultation with your doctor suitable permitted alternatives do exist, please use this permitted treatment instead. A TUE will not be required for use of the permitted substance. Enter your email address if you would like your TUE Wizard Search Results sent to you*

### **Answer of "NO"**

*After consultation with your doctor, you can confirm that no permitted alternatives exist, or that a trial of permitted alternatives was unsuccessful **takes you to Q4.***

4. Are you included within the UKAD National TUE Pool?

*Please check [here](#) to find out whether you are included within the National TUE Pool for your sport.*

[www.ukad.org.uk/national-tue-pool#national\\_tool\\_search](http://www.ukad.org.uk/national-tue-pool#national_tool_search)

*If you are unable to find your sport from the list, please email [tue@ukad.org.uk](mailto:tue@ukad.org.uk) and provide us with details of your sport, level of competition, medication and diagnosis.*

## **Extract as at 26.11.24 for "BOWLS"**

[https://www.ukad.org.uk/national-tue-pool#national\\_tool\\_search](https://www.ukad.org.uk/national-tue-pool#national_tool_search)

### **National TUE Pool**

*The timing of when an athlete needs to apply for a [TUE](#) and who they need to apply to is based on their sport and competition level. The National TUE Pool sets out which athletes are required to apply for and obtain a TUE in advance of starting treatment with a prohibited medication or method (unless any of the exceptional circumstances listed below apply).*

### **[Exceptions to obtaining a TUE in advance of starting treatment](#)**

*Only in the following circumstances should treatment begin in advance of obtaining a TUE:*

1. *Emergency or urgent situations (e.g., allergic reaction, exacerbation of asthma, onset of bell's palsy, surgery, admission to A&E). In such circumstances, a TUE application should be submitted to UKAD as soon as possible.*
2. *When an athlete has started treatment prior to reaching a competition level that is included within the National TUE Pool. Such athletes should apply for a TUE as soon as they advance to a competition level that is included within the National TUE Pool for their sport.*
3. *Athletes who require the use of a glucocorticoid by local injection. In this instance, athletes are only required to apply for a retroactive TUE if they are subject to doping control in-competition and they subsequently return an Adverse Analytical Finding (AAF) for the presence of that glucocorticoid. Please refer to our [Glucocorticoid TUE Policy](#) for more information.*

# EIBA Anti-Doping Guidance Note

## **National TUE Pool Athletes**

Athletes who are considered within UKAD's National TUE Pool are required to apply for and obtain a TUE in advance of starting treatment with UKAD. Athletes should use the search function below to find out if they are included within the National TUE Pool.

## **International-Level Athletes**

Athletes defined by their International Federation as being an International-Level Athlete are required to obtain a TUE in advance of starting treatment and should apply directly to their International Federation.

Note: Athletes who are considered within the National TUE Pool and an International-Level Athlete should apply to their International Federation.

## **All Other Athletes**

Athletes who are not included within the National TUE Pool nor are defined as being an International-Level Athlete do not need to obtain a TUE in advance of starting treatment but instead should follow the retroactive TUE procedure outlined below.

### Retroactive TUE Procedure

Athletes who are not included within the National TUE Pool and are not considered an International-Level Athlete do not need to obtain a TUE in advance of starting treatment, but instead are required to apply for a retroactive TUE if they are drug tested. Such athletes should check with their prescribing doctor before starting treatment that:

- A. The need to use the prohibited substance or method is necessary to treat the diagnosed medical condition.
- B. The diagnosis is supported by relevant clinical evidence such as investigations, clinical examinations, and/or test results.
- C. No permitted alternatives exist (the status of other possible treatment options can be assessed using [Global DRO](#)).

Athletes have five working days to submit a retroactive TUE application after receiving written notification from UKAD that they have returned an AAF (a positive test result).

## **Search the National TUE Pool**

Athletes can search the list below to find out if they are included within the National TUE Pool.

Notes: Para-sports are listed separately from their non-disabled counterparts when the sports are governed by different National Governing Bodies (e.g., basketball and wheelchair basketball). Para and non-disabled sports are grouped together as one sport when governed by the same National Governing Body (e.g., athletics).

If an athlete's sport is not listed within the National TUE Pool, they should contact their National Governing Body to find out about the TUE requirements for their sport.

1. Players competing in International Events as listed by World Bowls

NB. Athletes who are included in the World Bowls Registered International Testing Pool and/or are due to compete in a World Bowls International Event should [apply directly to World Bowls](#).

**PLEASE NOTE** that the onus is now on all Bowlers to check their medication. It is no longer necessary to complete a "Medical Declaration Form" or carry a copy of their latest Prescription, as have been the practices in the past.

# EIBA Anti-Doping Guidance Note

## [UKAD Website: ANTI-DOPING RULES](#)

[www.ukad.org.uk/anti-doping-rules](http://www.ukad.org.uk/anti-doping-rules)

### The Anti-Doping Rules

Just as each sport has rules to determine how it is played or performed, there are Anti-Doping Rules in place to protect [clean sport](#).

Hyperlink - [www.ukad.org.uk/introduction-clean-sport](http://www.ukad.org.uk/introduction-clean-sport)

Doping is defined in the [World Anti-Doping Code](#) as the occurrence of one or more of the Anti-Doping Rule Violations.

Hyperlink - [www.wada-ama.org/en/resources/world-anti-doping-program/world-anti-doping-code](http://www.wada-ama.org/en/resources/world-anti-doping-program/world-anti-doping-code)

It's much more than a positive test.

You will find the current UK Anti-Doping Rules below.
